## **INTRODUCTION**

Congratulations on your purchase of the MIDI Solutions T8 8-output MIDI Thru Box. The MIDI Solutions T8 provides eight MIDI Thrus from one MIDI In, allowing additional MIDI Thrus to be added at any point in the MIDI chain. Active circuitry cleans up any skewing of the data bits that has occurred at the input, insuring accurate output signals. MIDI Solutions T8 is powered by the MIDI signal and requires no batteries or power supply to operate.

## **CONNECTIONS**

Connect the **In** of the T8 to the MIDI Out or Thru of the sending MIDI device. Connect the **Thru1, Thru2, Thru3, Thru4, Thru5, Thru6, Thru7, and Thru8** of the T8 to the MIDI Ins of the receiving MIDI devices. It is recommended that no other MIDI-powered products be connected to any of the T8's inputs or outputs.

## **OPERATION**

The T8's MIDI Indicator LED will light as soon as the sending device is turned on, and flashes whenever MIDI data passes through the unit. All MIDI messages appearing at the input are sent to Thru1, Thru2, Thru3, Thru4, Thru5, Thru6, Thru7, and Thru8.

## **WARRANTY**

MIDI Solutions Inc. warrants this product to be free from defects in material and workmanship for a period of one (1) year from date of purchase. This warranty is void if the product has been damaged by accident, misuse, alteration, unauthorized repairs or other causes not arising out of defects in material or workmanship.
