

CM40
Chromatic Tuner/Metronome

CM40 Chromatic Tuner/Metronome

Samson brings precision tuning and metronome capabilities together in our CM40 Chromatic Tuner. Its compact, easy-to-use design makes tuning any stringed, woodwind or brass instrument, as well as metronome training, a breeze.

As a chromatic tuner, the CM40 offers a variety of impressive features, including two modes of tuning: Tone (manual) and Meter (automatic). When using Tone mode, the tuner automatically recognizes the note you're playing, while Meter mode allows you to select a reference pitch. Use its on-board microphone to adjust acoustic instruments and its 1/4-inch input connector for electronic instruments. Also, the CM40 puts a flat tuning/transposition setting at your fingertips. Ultimately, the CM40 always generates a smooth, real-time response with precise tuning accuracy that can be calibrated between 430 and 450 Hz.

The CM40 also functions as a metronome. Practice along with tempos ranging from 30 to 250 bpm using the tuner's built-in speaker with volume control, 1/4-inch output and 1/8-inch headphone jack. In Beat mode, you can choose from ten different time signatures. And by using the Rhythm function, each time signature contains nine rhythm variations for practicing a wide range of styles. You will master your timing, no matter the time signature or style of music your playing.

Designed with a large, full color LCD display, as well as LED pitch/beat indicators, the CM40 can be easily used in any environment, including a dark stage. It also features an integrated kickstand for better viewing. Lastly, a convenient auto power-off function conserves the two included AAA batteries that power the CM40 if it is not in use for 10 minutes.

FEATURES

- > Large, full color LCD display and LED indicators
- > Tone (manual) and Meter (automatic) tuning modes
- > Built-in mic
- > Flat tuning/transposition
- > Smooth, real-time response
- > Precise tuning accuracy
- > Pitch calibration (430-450 Hz)
- > Metronome ranges from 30 to 250 bpm
- > 10 Beat settings, each with 9 Rhythm sub-settings
- > Dynamic speaker with volume control and headphone output
- > AAA batteries included
