HEX-BASE® Studio Boom

MICROPHONE STANDS

FEATURES AND BENEFITS

The HEX-BASE® Studio Boom is designed with the professional recording musician in mind. It is equipped with 2 straight boom shafts that can be attached for studio recording. Or remove the front boom and use the back boom for project studio work. The boom arm slides effortlessly through the 1" square housing and locks with a tension knob. Boom angle adjusts with a 40-tooth clutch. The 17 lb. patented base is a step above the rest as it provides a low center of gravity, giving it stability even when moved. Also includes removable casters.

Removable 7" arm extension with Posi-lok™ clutch to adjust mic to any position.

40-tooth boom clutch adjusts boom angle and locks securely.

3 Section vertical shaft adjusts from 40"-82".

82" Boom with 7 lb. sliding counterweight.

Patented Hex-Base® with removable casters provides stability and mobility.

The **NEW STANDARD** in Studio Booms

Features like these raise the standards in Studio Booms!

- 3 Telescoping shafts w/ 2 large friction locking knobs.
- A solid steel lug connects the shaft to the base.
- 7 lb. sliding counterweight w/ locking threaded knob.
