DON'T JUST PLAY GAMES. PLAY DRUMS!

DRUM ROCKER delivers the most accurate drumming experience available in a gaming controller, giving you pro-quality drum and cymbal pads mounted on a totally adjustable aluminum drum rack. Add an all-metal pedal, a pair of hickory sticks and all the cables and connections you need, and you're looking at a serious drum set for playing music games.

DRUM ROCKER is based around high-quality,

FEATURES

- The official premium drumset for Rock Band
- Perfect for playing Rock Band in the bedroom, living room, practice room, or at bars and clubs
- Low-noise, velocity sensitive pads
- Fully-adjustable setup
- Extremely durable
- Realistic drumming experience for Rock Band

velocity sensitive, gum rubber drum pads that feel great and dramatically reduce stick noise so all you hear is the music. Because it's built around pro-grade components, DRUM ROCKER is super-durable and flexible. You can add a third cymbal or second kick drum pedal for the ultimate playing experience.

When you're ready to step beyond the game and play drums for real, DRUM ROCKER can be converted to a pro-grade electronic drum set by replacing the game controller module with a professional drum module such as the Alesis DM5. Go from playing Rock Band to playing in a rock band!

Set up and rock out the way you want: quiet or loud, high or low, DRUM ROCKER puts you in the Rock Band drum throne.
