

M9 Stompbox Modeler

M13 Stompbox Modeler

## Buy a M9 and/or M13 and save \$100

The M9 and M13 Stompbox modelers offer stunning stompbox tones, old-school simplicity in all-in-one stompbox solutions.

You can customize dozens of virtual pedal boards with multiple effects at a time and in any order you want, then decided whether you just want to stomp through them or completely reconfigure the board – without doing the Velcro shuffle. With over 100 models to draw from, including Line 6’s popular “super stomps”, it’s an entire collection of vintage effects in one package. There’s even a built-in 28 sec looper, tuner and universal tap-tempo, which syncs all the time-based effects.

The M13 lets you set up virtual pedalboard scenes with any 12 effects where 4 can be played at once. The M9 give you 6 effects in a scene where 3 can be played at once.

There’s never been a better time to add over 100 effects to your pedal board or even rationalize it down to just a M9 or M13 because we are offering \$100 instant rebate on each of them – starting November 1<sup>st</sup> until December 31<sup>st</sup> 2014.
