Marshall MG15MSII Micro Stack
 "Little brother" offers up Marshall-size tone in a compact form, measuring a mere 37"H x 15"W x 9"D. 2-channel (Clean and Overdrive), 15W head with reverb powers two 1x10" speaker cabinets - one straight and one slanted - in true classic Marshall form. Incorporates Marshall's proprietary FDD™ circuitry, which emulates tube amp feel and sound. The amp's three-way EQ includes a Contour control that lets you accurately fine-tune the mids. In addition, as all MG Series amps, the MG15MSII boasts a CD input, an Emulated Line Out and a Headphone jack that, when used, mutes the speakers, for "silent" practice sessions.
 #MAR MG15MSII **\$299.97**

Marshall MS4 Micro Stack

9-3/4" tall, 2 speakers, headphone jack, Marshall tone and feel. 9V adapter or battery power.
 #MAR MS4 **\$59.99**

"THE VINTAGE MODERN SOUNDS @#\$%IN' AMAZING.
I'M REALLY STOKED THAT YOU GUYS
HAVE MADE THIS AMP, AND I THINK
A LOT OF OTHER PEOPLE WILL BE TOO...
THANKS JIM!!"

"It's incredibly dynamic and has got the kind of saturation where all the natural nuances of your guitar still come through. It has a big, warm, smooth, even sound, but the amp doesn't take over — you can actually still hear the string against the fingerboard. That's real important to me and is something you can lose with a lot of amps."

—Slash, Velvet Revolver

Armed with a KT66 driven output stage, the all-valve Vintage Modern amps ooze the tone that dominated the British blues rock scene of the late '60s/early '70s.

A switchable, "hotrodded" mode kicks in an extra 12AX7 preamp valve, giving you the classic "modded" sound of the harder hitting rock bands of the mid '80s. Vintage Modern: bringing back the art of playing the amp...test drive one today at your local Marshall dealer.

Marshall

Marshall Vintage Modern Series

NEW Marshall appeases today's guitarist with the new Vintage Modern series. Tone is vintage: fat, smooth, dynamic and classic. But features are thoroughly modern: series FX Loop, Extra overdrive for those hot "modded" sounds, onboard reverb and a new frequency selective pre-amp to dial in just the tone you want. The 2466 100-Watt Head, 2266 50-Watt Head and 2266C 50-Watt 2x12 Combo are all-valve single channel amps with two "dynamic ranges" selectable by footswitch. Mid Boost switch on front panel fattens the tone, while a traditional Marshall tone control circuit enables fine tuning. Vintage Modern angled (425A) and straight (425B) cabinets are 4x12 speakers that are mono/stereo switchable and loaded with G12C 25-watt Celestion Greenbacks.

Marshall LTD Jimi Hendrix Hand Wired 100W Stack

The Jimi Hendrix Stack is sold as a set consisting of the Super 100JH head, the angled 1982AJH 4x12" cabinet and the extra-tall, straight-fronted 1982BJH 4x12" cabinet. The Super 100JH is an extremely straight-forward amplifier. Its two channels — High Treble and Normal — each have two inputs and separate Loudness controls. Both channels share the amplifier's four tone controls: Treble, Middle, Bass and Presence. It contains three ECC83 (12AX7) valves in the preamp and a quartet of KT66 valves in the power amp (Standard in mid 60's Marshall amps) and a special Drake transformer re-created from the original specs and materials. The 1982BJH cabinet is nearly 7" taller than a standard Marshall 4x12", adding further to the impressive look of the stack. Just like the original 1982s, both JH cabs are loaded with Celestion G12C 25W speakers.

#MAR JHSTACK †† \$6,400.00

Fender

Fender Princeton Recording Amp

The Fender Princeton Reverb Amp of the 1960s, though small, light and moderately powerful, produced giant tube tone. The new Fender Princeton Recording Amp offers all of the great tone and dynamics of the original, plus several modern studio-friendly features. Its all-tube preamp, power amp and reverb circuitry is based on the classic '65 Princeton Reverb, and, with 20 watts and a 10" Jensen® speaker, it provides spanking vintage tone and enough output for small gigs and rehearsals. The trans-impedance power attenuator lets you crank up the amp for full output tube overdrive and set the speaker volume as low as you want (even silent for headphone use)!

FREE SHIPPING #FEN 2152000 000 **\$999.95**
5 easy payments of \$199.99

Fender Custom Vibrolux Reverb

The Fender Custom Vibrolux Reverb is not a reissue, but rather a modern interpretation of a classic Fender. Turn it up when you want to soar, or turn your guitar down to play clean with this super-responsive 40-watt all-tube amp. Features include a pair of 6L6 Groove Tube™ output tubes, five 12AX7 preamp tubes, one 12AT7 tube, two 10" 8-ohm Jensen® P10R speakers with alnico magnets, two independent channels (normal and bright), reverb (functions in both channels), vibrato (functions in both channels), 4-ohm external speaker jack, two-button footswitch and tilt-back legs.

FREE SHIPPING #FEN 2151000 000 **\$999.95**
5 easy payments of \$199.99

Fender 59 Bassman LTD

The Fender 59 Bassman LTD reissue amplifier brings back that bluesy tone that is so sought after. The 59 Bassman LTD reissue features a 45 Watt, all tube power amp powered by 6L6 and 12AX7 tubes and one 5AR4 rectifier tube for natural compression when playing hard. Other features include a solid finger-jointed pine cabinet for a nice resonant tone, an internal bias pot that makes it easier to experiment with various output tubes, and a genuine lacquered tweed covering.

FREE SHIPPING #FEN 2171000 010 **\$1,199.95**

Fender '65 Super Reverb

The most requested Fender® reissue amp ever, this faithful recreation of the legendary Blackface Super from the 1963-1968 era is a must-have for vintage enthusiasts and modern players alike. Versatile, stage filling sound and medium output make it the perfect amp to crank up for unmiked clubs or concert stages. Legendary reverb, Blackface tremolo, four 10" Jensen P10R Alnico speakers, tube rectifier and two-button footswitch.

FREE SHIPPING #FEN 217600 **\$1,199.95**
5 easy payments of \$239.99

Fender '65 Twin Reverb®

To accurately recreate the tone of an original '65 Twin, Fender® went right back to the original schematics, original parts (even original vendors when possible) and started making the amps again. This is a 2x12" 85W amp that gets its tone from a total of 10 tubes, including tube-driven reverb and vibrato. This Twin delivers timeless tone and expression.

Fender Super Sonic Amplifiers

Super Sonic amps are the first all-tube Fender amps to capture the sparkly tones of the '65 Vibrolux®, the thick tone of the '66 Bassman®, and the smooth and creamy crunch of modern, high-gain amps. The 60-Watt Super-Sonic 112 features genuine Fender spring reverb, dual cascading-gain preamp overdrive with more creamy sustain and compression than any previous Fender amp, and a single 12" Celestion® Vintage 30.

The Super Sonic Head delivers 60 Watts, with an effects loop, Preamp Out/Power Amp In jacks, and a 3-button footswitch. Matching speaker cabinets feature Celestion® Vintage 30s and high-grade Baltic birch ply construction. Choose Black/Pepper or Blonde/Oxblood.

Fender Blues Deluxe Reissue Guitar Amplifier

The players have spoken. This little Fender number is awesome! You might just find yourself selling your stomptboxes because right out of the box, this amp simply nails the vintage blues, country, jazz, and classic rock n' roll tone that can only be found in tubes. And with a classic tweed look of Fender tube amps of yesteryear, you will be proud to show it off. Features: 12in, 40W, three preamp tubes, two output tubes, Normal & Drive channels, Bright switch, Spring reverb, Effects Loop, Two-button footswitch included.

FREE SHIPPING #FEN 2232200 000 \$649.98
3 easy payments of \$216.66

Fender Champion 600

A fun, affordable tribute to a rare amp. Fender's new Champion 600 is a 5-watt tube amp with a 6" speaker and 1950 "two-tone" looks. They added a higher-gain preamp circuit to let the overdriven tone exceed that of the original, and added a choice of high- or low-gain inputs. Internal speaker jack enables use of a larger speaker cabinet. Only 15 pounds, a great little tube amp for recording or practicing.

FREE SHIPPING #FEN 2330100 000 \$199.95

Fender Hot Rod Series Amps

Fender Hot Rod DeVille 410 - 60W, 4x10", 3-channel combo spans from the smooth, clean tone of a '57 Bassman® to the hardest rock and roll distortion. Includes footswitch, cover, Fender® reverb, an extension speaker jack, effects loop and a 5-year transferable warranty.

FREE SHIPPING #FEN 213201 \$799.98

Fender Hot Rod DeVille 212 - Same as the 410 but w/2x12" speakers.

FREE SHIPPING #FEN 213200 \$749.97

Fender Hot Rod Deluxe 112 - With 3 channels of Fender American Tube tone, this 40W 1x12" combo can go from gorgeous Fender clean sound, to a dirty blues/rock tone, to the third "More Drive" channel's intense overdrive. Reverb, footswitch, an extension speaker jack, and effects loop.

FREE SHIPPING #FEN 213202 \$649.98

Fender Blues Jr. Amp - All-tube tone (e 12AX7s and 2 EL84s) and quintessential reverb you expect to hear from a Fender®. Blues Jr. delivers 15W through a 12" speaker & a footswitchable "Fat" switch for abroad tone.

FREE SHIPPING #FEN 213205 \$449.97

Fender Pro Jr Amp - Although quite compact, the 15W, single-channel Fender Pro Junior delivers big tone for studio and rehearsal work, and many players

over the years have grabbed a pair of them for stage use. They provide an easy way to warm up stereo multi-effects boxes, too. Two EL-84 Groove Tube output tubes and a pair of 12 AX7 preamp tubes push that one-and-only sound through a single 10" 8-ohm Fender Special Design Eminence speaker. The look is pure Fender—chrome panel with vintage pointer knobs, plus black textured vinyl covering and silver grille cloth. Dimensions: 14.5" x 15.25" x 8.75", 20 lbs.

FREE SHIPPING #FEN 213203 000 \$339.99

Fender CyberTwin SE Digital Amp

This is the "Second Edition" of this amazing, technologically advanced guitar amp. The original Cyber Twin was the flagship in a new class of amplifier that uses Cybernetic Amp Design - a patented technology that enables the CT to be "rewired" and actually become different amplifiers according to the original's schematics. The new Cyber Twin SE is all that plus new effects, new effect combinations, 250 total presets, improved amp filtering and new timbre filters including Metal Drop Scoop and Acoustic Scoop. There are loads of other new features but the essence of the original remains - Pure Tone. Two footswitches are included.

Peavey 6505 Series Amplifiers

The 6505 became the undisputed go-to guitar amp for scores of hardcore and underground metal bands. Its raw tone, crushing power and road-proven reliability make it the right choice. 6505 Plus heads have six 12AX7 preamp tubes and four 6L6GC power amp tubes (120 Watts!). Presence and resonance controls and 3-band EQ for taming their notorious tone. 6505 head has five 12AX7 pre-amp tubes and four 6L6GC power amp tubes; 120 watts. Also available in a combo model with two 12" speakers.

Add matching straight or angled 412 cabinet to either 6505 head. Still the choice for an ever-expanding list of endorsers: Ted Nugent, Atreyu, Steve Morse, In Flames, Arch Enemy, Visqueen, God Forbid, HIMSA, Darkest Hour, Sworn Enemy, Unearth, many more.

Peavey Windsor Series Amplifiers

The Peavey Windsor 120W guitar head is Peavey's new hard-rocking, single-channel tube amp with undeniable power, tone and versatility. While most amplifiers leave the EQ to the preamp section, the Windsor features Peavey's patented Resonance and Presence controls, which adjust upper-end and lower-end amp response and damping factor. The Windsor also features Peavey's patented Texture™ circuitry for dialing in the tone characteristics of modern Class A/B push-pull and vintage Class A sounds. Peavey also provides Windsor 412 cabinets that are voiced to match the rocking guitar tones of the Windsor amp head. The Windsor 412 cabinets are available in straight and slant versions.

Hughes & Kettner
TECHNOLOGY OF TONE

Hughes & Kettner Switchblade

The World's first fully programmable Tube Amp with digital Multi-FX and Amp Modeling! Six hand-selected tubes (12AX7 and EL34) are at the core of Switchblade's design. Its four channels are optimized to cover a wide range of tones from California clean to British crunch and classic rock to contemporary American hi-gain Nu Metal. The amp's FX-section provides considerable effects power with three independent blocks that all work simultaneously (Delay, Modulation and Reverb). The user interface offers classic tube amp look & feel but is fully programmable for a total of 128 different tube tones at the touch of a button! Includes MIDI-Board pedalboard controller.

GENZ-BENZ
ENCLOSURES

Genz Benz G-FLEX 2x12 Inch Guitar Cabinet

This dynamic 2x12 ported guitar cabinet is designed for monster tone and performance. The unique design features multiple ports and a flexed baffle. The porting produces a punchy low-end, while the flex reduces the boominess and increases the projection of GBE 1240-V75 speakers. The result is a huge sound that can out-perform many 412's. Wired for mono or stereo operation. 150W RMS/4 ohms (mono), 75W per side, 8 ohms (stereo), 62 lbs.

- FREE SHIPPING** #GEZ GFLEX **\$559.98**
- 3 easy payments of \$186.66

Genz Benz Black Pearl Combos

If you're looking for an incredible sound in the studio without bringing in a full stack, look no further. Features such as an all tube signal path utilizing 12AX7s and 12AT7s in the preamp section and EL84s in the power section, the BP30 really cooks. Whether you want over the top distortion from the Tube Rectifier, or the sparkling clean blues or classic rock tone, you'll find it here.

Behringer V-Tone GMX Series Guitar Amps with Effects

An impressive, cost-effective series that will save you tons. The GMX212 is 2x60 amp, with 2 12" speakers and authentic analog modeling, multi-FX and tuner. 2 modeling channels boast 3 classic amps, 3 speaker models plus 3 gain modes each— all individually selectable. Captures every nuance and lends tube-like compression to your tone. Offers MIDI & footswitch controlled tuner. The GMX1200H analog modeling head has 3 amp models, 3 gain modes and 3 speaker simulations, all based on pure analog circuitry. Fully independent channels, each with 27 modeled sounds, for awesome emulated tube warmth. Loaded with 2x60 W amps and pro FX, tuner & MIDI. BG412S: Creates an intense stereo image. The lower speakers assure optimum center positioning. Also runs in mono. Perfect for the GMX1200H.

Celestion Speakers

Vintage 30 - Loaded in Marshall Vintage cabinets, infinite sustain, even smoother mids and high end and more gradual breakup than the Green Back. 60W.
Celestion Greenbacks - Classic soft low-end rolloff and presence peak. The Greenback delivers smooth, gradual breakup for that vintage tone. 25W, ideal in 4x12, 2x12 cabinets.
Celestion Alnico Blue - The world's first dedicated guitar loudspeaker and a part of musical history! Back in the 1950s, the unique tonal character of the Celestion Blue (a modified G12 radio speaker), combined with the valve amps of the time, helped to define the electric guitar as we know it today. 12", 15W, 8 Ohms.

Celestion Alnico Gold - A higher-powered version of the world-famous Alnico Blue. Perfect for single or multiple applications in cabinets or combos. 12", 50W, 8 Ohms.
Celestion G10 Vintage - Designed to be a 10" version of the incredibly smooth Vintage 30 but with a unique voice all its own. The perfect upgrade for your Super Reverb, twin 10" combo, or single 10" fire breather. 60W, 8 Ohms.

Celestion Rocket 50 Guitar Speaker

List Price: \$110.00 **Special Sale \$39.95**
AMS Reg. Price: \$79.95
 Great 12" replacement speaker for cabs or combos. Lots of high end harmonics; smooth mid bass; no boomy bottom to clog the rippin' top end. 50W, 8 ohms.
