ENVELOPE BI-FILTER

# SUPRA

## WHAT IS THE SUPA FUNK?

The Supa Funk is the evolution of our Funkzilla and Funk-lite family of pedals, featuring a responsive and articulate envelope generator, expanded controls and most notably, the new Color knob that blends in a secondary low-pass filter. Go from a classic snappy vintage funk bom-chicka-wow-wow, all the way to throaty, full, rich and vocal filter sweeps at the turn of a knob.

To complete it's all analog funkariffic tonal pallet, the Supa Funk is housed in a beautiful 70's retro themed enclosure with top jacks and soft touch true-bypass switching and is designed and built entirely by a passionate team of gearheads in our Montreal shop.

We hope you're ready to get down and boogie...you supply the groove and this little box will bring the funk.

## WHAT DO THE CONTROLS DO?

**Depth:** From light and funky to deep and fun-kay, this knob adjusts the width or peak of the envelope effect.

**Freq:** This control adjusts the center frequency of the filter sweeps. At noon, the control is set neutral. Turn the knob CCW for lower-frequency dub blasts and turn it CW for higher-frequency stabs that really cut.

**Attack:** This control determines how hard you have to hit the strings to get the filter to “open up.” It adjusts two parameters at once – decay time and sensitivity. Turning the Attack CW triggers the filter more easily and keeps its open longer. Turning CCW makes the pedal more responsive by requiring more signal to trigger the filter and giving it a quicker decay time. Turning this knob to zero slams the envelope shut and you can dial in fixed filter or “cocked wah” tones.

**Color:** This control blends in the secondary filter. Turn it CCW for brighter, snappier filter tones and CW for added girth and growl.

**Direction:** Changes the sweep direction between forward and reverse.

**Level:** This is the master volume of the pedal.

## WARRANTY INFORMATION

All SolidGoldFX products purchased through the [solidgoldfx.com](http://solidgoldfx.com) website or our authorized dealers come with a three-year warranty against failure resulting from defective parts and/or faulty workmanship. Cosmetic flaws or issues related to wear and tear are not covered.

The warranty applies only to the original owner of the product and is not transferable. Warranty coverage terminates three years after the owner receives the product. While a product is under warranty, the product will be repaired free of charge. The owner of the product will be responsible for both shipping to and from SolidGoldFX. Warranty coverage will be automatically cancelled should the product be tampered with, modified, abused, damaged through misuse, repaired by an unauthorized third party, or damaged through failure to follow the operating instructions. Use of an improper power supply will void warranty.
