

## Studio to Go!

SHARE

**June 1 - June 30, Purchase iLoud Micro Monitor and get a free travel bag!**

17 May 2018

### Ultra-compact, high quality reference studio monitors

From June 1 - June 30 receive a complimentary **iLoud Micro Monitor Travel Bag** with the purchase of your very own **iLoud Micro Monitor**. To protect your iLoud Micro Monitor when you're carrying it around, the iLoud Micro Monitor Travel Bag (39.99), a durable, 100% polyester case featuring a stitched-in iLoud Micro Monitor logo, adjustable straps and a zippered pouch for cables and other small items is yours absolutely free!

### Hi-end features & sound without the high-end price

Only **iLoud Micro Monitor** offers you the features and characteristics of high-end monitors (sonic accuracy, definition, reference-response, bi-amplification, DSP control, positioning EQ, integrated isolation base) and more at almost the cost of a budget monitor. iLoud Micro Monitor provides you with ultra-accurate true linear frequency response with no coloration, and does so in every listening environment, especially in home and project studios. Now when you're working in small studio spaces, you can finally hear a perfect representation of your music without having to compromise between features and cost.

### Also available in White

In addition to the original black finish, the iLoud Micro Monitor is also **available in a modern white finish!** You can select the color choice that best matches your home or studio set up.

## iLoud Micro Monitor - Overview

### **Sonically transparent**

Due to its internal 56-bit digital signal processor (DSP), this DSP responsible for things like taking care of the frequency and phase response of the monitors as well as also controlling the dynamic range so that the drivers are always under control and operating efficiently. It also acts as a digital crossover that allows for invisibly smooth transitions between the drivers themselves.

### **The first monitor that can travel with you**

Because iLoud Micro Monitors are the smallest - and lightest (1.7kg / 60.7oz) - monitors in the world, you can now for the first time ever have a true reference monitor system everywhere you go — just pack them into your complimentary iLoud Micro Monitor Travel Bag and go!

**iLoud Micro Monitor is available in the IK Multimedia Store for \$299.99.**

**Buy now until June 30th and receive a complimentary iLoud Micro Monitor Travel Bag!**
