## SATISFACTION

### VINTAGE FUZZ

Congratulations on your purchase of the Satisfaction Fuzz, a modern recreation of the classic fuzz sounds of the 1960s. Updated with a compact nano chassis, the Satisfaction creates drive sounds ranging from crunchy breakup to intense fuzz. Attack and Volume controls put you in the mix, and true-bypass switching keeps your bypassed signal intact

### - CONTROLS -

**ATTACK Knob** – Controls the amount of input gain and distortion. As you turn this knob clockwise, the SATISFACTION ranges from mild drive to saturated fuzz.

**VOL Knob** – Sets the output level of the SATISFACTION.

**FOOTSWITCH and LED** – The Footswitch selects whether the SATISFACTION is engaged or in true bypass mode. When the effect is engaged, the LED is lit.

**INPUT Jack** – This ¼" jack is the audio input for the SATISFACTION. The input impedance is 50kΩ.

**AMP Jack** – This ¼" jack is the audio output from the SATISFACTION. The output impedance depends on the VOLUME setting, ranging from 100Ω to 25kΩ.

**9V Power Jack** – The SATISFACTION can run off of a 9V battery or you can use an optional 9VDC AC Adapter capable of delivering at least 25mA to the 9V power jack. We recommend the **EHX9.6DC-200**. The AC Adapter must have a center negative plug. The battery may be left in or taken out when using an AC Adapter. The SATISFACTION draws 1.5mA at 9VDC. **The maximum voltage that may be connected to the 9V Power Jack is 10VDC.**

### - CHANGING THE BATTERY -

To change the battery, remove the four screws on the bottom of the SATISFACTION and take off the bottom plate. The battery clip is in the bottom of the unit. Take care not to touch the circuit board while changing the battery in order to avoid damaging a component.

### - WARRANTY INFORMATION -

Please register online at <http://www.ehx.com/product-registration> or complete and return the enclosed warranty card within 10 days of purchase. Electro-Harmonix will repair or replace, at its discretion, a product that fails to operate due to defects in materials or workmanship for a period of one year from date of purchase. This applies only to original purchasers who have bought their product from an authorized Electro-Harmonix retailer. Repaired or replaced units will then be warranted for the unexpired portion of the original warranty term.

If you should need to return your unit for service within the warranty period, please contact the appropriate office listed below. Customers outside the regions listed below, please contact EHX Customer Service for information on warranty repairs at [info@ehx.com](mailto:info@ehx.com) or +1-718-937-8300. USA and Canadian customers: please obtain a **Return Authorization Number (RA#)** from EHX Customer Service before returning your product. Include with your returned unit: a written description of the problem as well as your name, address, telephone number, e-mail address, and RA#; and a copy of your receipt clearly showing the purchase date.

### FCC COMPLIANCE

*Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:*

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*Modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment under FCC rules.*
